

Fiber/cable OD: 0.8-6.5 mm  
Duct size OD: 4-16 mm

# MICROFLOW LOG & MICROFLOW TOUCH

## Mandatory parts for usage

**Adaptor plate kit**  
You can choose adaptor plates for fiber sizes between 0.8 - 6.5 mm.

**Gasket sets (5 sets)**  
You can choose gasket sets for adaptor plates for sizes between 0.8 - 6.5 mm.

## Recommended accessories for usage

**Sponges for duct cleaning**  
For micro cable from 3.0-6.5 mm, clean duct with sponges before installing cable.

**Lubrication**  
We recommend FlowLUB 5000 for micro cable from 3.0-6.5 mm.  
*Utilization of lubrication during fiber blowing increases blowing distance by a factor of 2-3.*

**Midi drum rack**  
We recommend a drum rack for easy, safe roll out of microfiber. Easy to transport and secures the fiber.

If you are in need of competent feedback on your fiber blowing project, do not hesitate to contact us.
