

# MINI Y-BLOCK

The Mini Y-block can assist you in adding one cable to an existing duct with cables inside.

## Fixed connections

The Mini Y-block is made with either 40-40 mm and/or 50-40 mm fixed connection. This means it can be freely reversed and connected to similar existing ducts in the ground. Upon request other custom made sizes can be produced.

## Fits in the handhole

The Mini Y-block fits in most of the smaller handholes. It can withstand air/water pressure up to 25 bar.

Uses the same cable sealings as the rest of the Fremco blocks

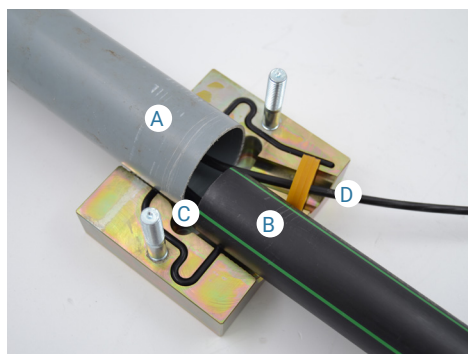

## SPECIFICATIONS

Item No (40-40 mm):	KA60500-40
Item No (50-40 mm):	KA60500-50
Pressure resistance:	Max. 25 bar
Length:	120 mm
Width:	110 mm
Height:	60 mm
Weight:	4.3 kg

## DON'T FORGET TO ORDER

### Cable seals

Different variants in sizes between 4-25 mm

- A) 50 mm existing duct
